

Archiving Data Overview

Category: Archiving Data

This article provides links to information about archiving or retrieving files to/from the NAS long term storage systems, Lou[1-2].

Mass Storage Systems Lou[1-2] describes the disk and tape drives capacity, and how to find the storage system that is assigned to you.

Archiving Data in Compute Systems talks about backing up data from the home and /nobackup filesystems of Pleiades or Columbia to long-term storage, and what file transfer commands can be used for such tasks.

Quota Policy on Disk Space and Files provides information on the policy and soft and hard quota limits of disk space and files (inodes) of the home and /nobackup filesystems of Pleiades, Columbia and Lou.

Validating Files Transferred to Mass Storage by Size and Number describes a light weight approach to validate the files transferred from Pleiades/Columbia to Lou.

Data Migration Facility (DMF) Commands explains the usage of the DMF commands for managing files (such as listing, finding, migrating, un-migrating, or copying) stored on tapes.
