

I accidentally deleted some files--can I get them back?

Category: FAQ

Yes, you can recover deleted files if you deleted them in your home directory. Please call the NAS Control Room at (800) 331-8737 or send an email to support@nas.nasa.gov with file name and path, along with the date the file was last modified.

The /nobackup directories are not backed up and cannot be restored. For more information on filesystem management, see the articles [Pleiades Lustre Filesystems](#) and [Columbia CXFS Filesystems](#).
